a Brazil's agro-ecological zones

AEZ 6	Year-round humid tropics	5.3 Mha kept
AEZ 5	Humid tropics	1.8 Mha kept
AEZ 4	Sub-humid tropics	0.4 Mha kept
AEZ 3	Moist semi-arid tropics	
AEZ 2	Dry semi-arid tropics	
AEZ 12	Temperate, year-round	0.26 Mha kept

Kept: the clearing the baseline (the EUDR world) makes in five years, 7.8 Mha in all. Zones: GTAP-AEZ, thermal zone × length of growing period, from FAO GAEZ v4.

b Land use at the club equilibrium (flat penalty) relative to the baseline

tropical zones
